

## Help deliver road safety in your Parish

'Become a Road Safety Volunteer' is part of **Norfolk County Council's** latest road safety campaign to make Norfolk's roads even safer.

Norfolk County Council is looking for residents to come forward and become road safety volunteers in their community.

Whether teaching cycling and pedestrian safety to children, helping to promote the proper fitting of child car seats, or helping deliver workshops to younger drivers, the County Council is looking to encourage communities in Norfolk to take collective action to help make their roads safer by helping better educate fellow residents.

Volunteers would complement the valued Road Safety work that the council delivers right across Norfolk.

Existing volunteers are currently the stars of the council's advertising campaign to support the recruitment drive.

To become a Road Safety Volunteer please call **0344 800 8020** or visit **[www.norfolk.gov.uk/mindroad](http://www.norfolk.gov.uk/mindroad)**

In the meantime please feel free to display the enclosed posters on your Parish Council notice board(s).

Many thanks.
